INTRODUCTION

CAS is one of the oldest Defense Logistics & Mission Support Companies in the Middle East.

An Emirati company established in Abu Dhabi in 1994 with many years of experience and acquired competences, CAS has become a leader in Defense and Commercial equipment, providing innovative solutions and systems integration for our customers.

We are dedicated to our customers' mission critical requirements to ensure total satisfaction. This is accomplished through in house capabilities, our large network of business partners and access to products and services spanning Aviation, Military ground vehicles and various support equipment.

Through our years of experience we have built our strength and continue to grow as a dedicated support element in the Governmental security in the GCC region.

Creativity, innovativeness, quick action, and teamwork are what we find essential in business to meet and exceed our customer's expectations.

CAS develops resources to quickly respond to the changes occurring worldwide and meet diverse customer requirements in the region.

The CAS Team is passionate, visionary and energetic in all aspects of daily business. We attach particular importance to values such as trust, responsibility and ethical business practices.

We offer our customers the "CAS Advantage" of

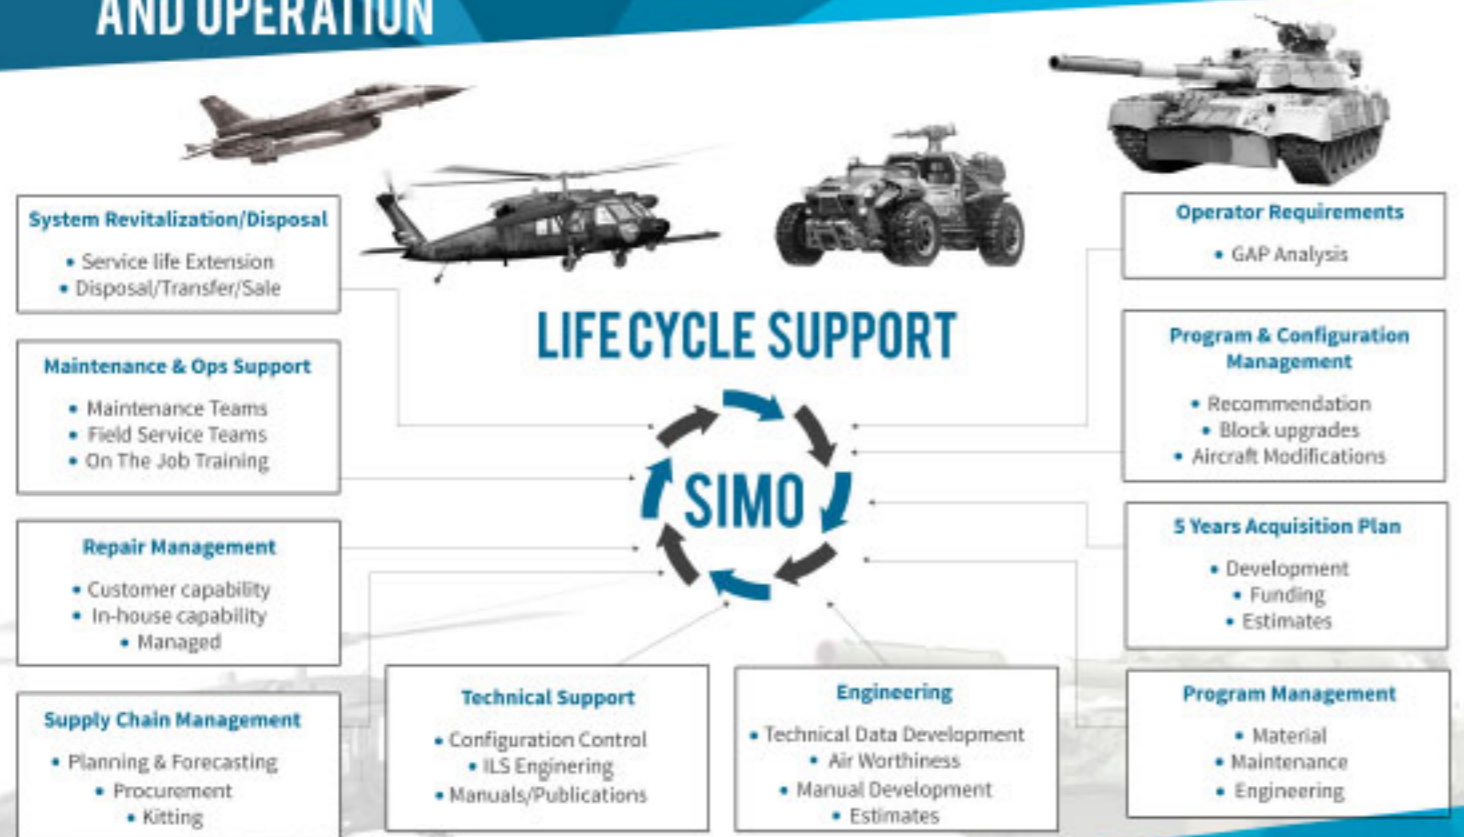

- ▶ Air, Sea and Land Military Support and Services
- ▶ Engineering & Maintenance
- ▶ Modifications & Upgrade Solutions
- ▶ Weapon Systems, Special Military and Defense Training
- ▶ Critical Infrastructure & Border Security
- ▶ Personnel Protection Systems
- ▶ Customer Support
- ▶ MED-EVAC Equipment
- ▶ Spare Parts & Logistics
- ▶ Training and Manpower
- ▶ Equipment Environmental Protection

WHAT WE OFFER

SYSTEMS INTEGRATION MAINTENANCE AND OPERATION

Ensuring the operational readiness of customers systems and sub-systems with intelligent service modules, including assistance of military missions.

BEFORE

AFTER

UPGRADES AND MODIFICATIONS FOR AIRCRAFT AND GROUND VEHICLES

Along with our partnerships and teaming agreements, CAS has developed extensive capabilities in approved modifications and upgrades for aviation and government land forces aircraft and vehicles.

These modifications provide to the customer improved operational safety of personnel and equipment, mission critical sustainability in the field along with life extension of the equipment.

The modifications are further enhanced with technical support, spares and training.

Whether the modification is an engine inlet filtration system or an extended operational fuel tank; CAS along with our partners can provide the right solution to meet the customer's requirements

CAS is also the exclusive reseller and distributor of major OEM equipment modification services in the region.
